PUGET SOUND SEEDS

FOR YOUR CONVENIENCE At Your Local Garden Supply Store

A large and complete assortment of our choice standard and special varieties of flower and vegetable seeds are sold in 5c and 10c packages in these pictured display racks at your neighborhood store. Fresh seeds are delivered to the store every spring. They are the same choice fine quality seeds that we supply you with in our mail order department. We will be glad to send you the name of the neighborhood store nearest you.

TWENTY-FIRST ANNUAL CATALOG

Since 1920 (its first year) the Puget Sound Seed Company has made every effort to provide pure seeds, honestly represented, with prompt service.

We believe that seed grown in the Puget Sound district has a higher vitality and quality than seed grown elsewhere. When not available, we procure the highest grade of hardy northern and western seeds grown for us by the finest seed firms in the country, in selected varieties best suited for Northwest gardens and climate.

If you have used Puget Sound Company's seeds before, you know how satisfactory they are. We hope you will recommend them to others. If you are using our seeds for the first time, we hope you will note how choice the vegetables and how fine the flowers. Your recommendation to others will be greatly appreciated.

The planting directions given on the packages are necessarily brief. More complete information will be supplied at your request.

OUR GUARANTEE

We guarantee the vitality and purity of our seeds to the full amount of the purchase price. There are many natural causes why good seeds fail to grow—planting too early, while the ground is still too cold and wet; planting too deep; lack of moisture. Insects and birds eat the tender sprouts as soon as they appear. Should results not be satisfactory, we would like to help you ascertain the cause and correct it. We are so sure of our seeds that we send a duplicate package **from the same lot**, for replanting, on request, where first results were not right.

Because success depends greatly on good cultural practice and climatic conditions, we shall in no case be liable for more than the price paid for the seeds or their replacement. If they are not accepted on these terms they must be returned immediately.
